

carefully nursed, or that a more severe discrimination is exercised.

There has been considerable business in the Bullion market, this week—large arrivals have been made. Gold is taken freely for the Committee, and the day has been great demand for both Bar Silver and Mexican Dollars for the Union cause. The very high prices have been paid. But as the accounts for the East finish to say, it is expected that the market will be up its shoulders, and we do not, therefore, alter the quotations.

The following table will show the fluctuations in Cents from the 25th ult. to the 1st inst.

The amount of notes in circulation is \$3,407,830, being a decrease of \$44,500, and the stock of bullion in both departments is \$1,263,864, showing an increase of \$36,049 when compared with the preceding return.

E. F. Satterthwaite's Circular of August 1 per Can-
ada says:

There continues to be a considerable business doing in American Securities. The recent improved account of New York having stimulated prices, especially of those States' bonds, which are quoted at 7 to 7 1/2 premium. The Bonds of 1863 and 1865 are very firm. The States of the Com-
monwealths are becoming more freely dealt in; they are not
as yet quoted at par. The Bonds of Michigan, Indiana, and
Michigan Central are more quoted at 70 than 65. Some
trading is done in Michigan Central Stocks at 65 to 70.

Baring Brothers of the same date:

AMERICAN STOCKS—With any marked improve-
ment in foreign exchange, in some instances suffering
from a fall in price, there is a tendency to sell, and
therefore the market is not equal to the share wants of
the home market, as of French Bonds, in respect of
gold for small and large sums.

COTTON—No change has been made to a fair extent at 200
cents, including in the exchanges 100 cents. "Pineau's" is
the only market. In this, a general demand is
seen, but no particular rise or fall.
